

**the world of  
technology  
comes together**  
*for you*

**AT&T U-verse<sup>®</sup>  
is coming to  
San Francisco**

## **imagine the possibilities.**

High-speed broadband access to the Internet empowers, transforms and enlightens.

That's why AT&T is embarking on one of the largest network upgrades in our history. We're bringing fiber optic technology built on the global standard of Internet Protocol (IP) to San Francisco.

## **imagine:**

Your television, cell phone, laptop, PDA, digital video recorder, home appliances and so much more – working better because they work together *for you.*

**We are currently meeting with San Francisco neighborhood groups. To request a meeting or to find out how you can help bring AT&T U-verse<sup>®</sup> to your neighborhood, please contact us today.**
