#### Protect your family, and install a CO detector now. You may save a life.

Did you know that 500 people a year die in the United States from carbon monoxide poisoning? We've had such fatalities right here in San Francisco.

The good news, though, is that a new State law took effect July 1 – and that law requires homeowners to install immediately carbon monoxide detectors. Like a smoke alarm, these devices warn you with a piercing whistle that you and your family need to get out of the building and call 911 for emergency services.

Carbon Monoxide is invisible, colorless and tasteless. It takes technology to make you aware of its presence.

The Mayor's Office, the Fire Department and the Department of Building Inspection want you to act immediately, and install carbon monoxide detectors to protect your family. Visit our web site – [www.sfdbi.org](http://www.sfdbi.org) – to download an Information Brochure and to view a YouTube video.

#### Department of the Environment

Get Comfortable with Energy Savings!
